

Big Mouth Puppet

1. Print this page
2. Color the cat (and draw a background if you want)
3. Cut out the cat using your scissors
4. It's time to fold, start by folding the paper along the upper lip line on the design – fold across the paper width
5. Bring the top fold you just made to meet the bottom lip line and press the paper down
This will form another fold inside the cat's mouth
6. YOU'RE READY TO PLAY!

You can make it open and close it's mouth as many times as you want. And you can even see a surprise inside the cat's mouth.
